

ProffsAviation is a Company based on the founders' long experience within Cabin Operations. It is the first private independent Company in Finland focusing on Cabin Crew recruitment, training, agency and consultancy. ProffsAviation is providing qualitative Cabin Crew recruitment, training, agency and consultancy for airline operators. It's primarily target market is airline operators needing support with these services or wanting to outsource parts of Cabin Operations.

TRAINING

ProffsAviation provides Cabin Crew Initial Training for qualified Cabin Crew Member candidates and prepares the graduates for conversion or refresher training as well as working as Cabin Crew Members. The training programme is approved by the Finnish Civil Aviation Authority in accordance with Appendix 1 to OPS 1.1005.

The course leads to a Certificate within Ops1.1005/ Initial Training, after which the initial trained Cabin Crew Member are ready to conduct conversion or refresher training within the airline operators. ProffsAviation ensures that

- the Cabin Crew Member candidates successfully

complete initial training before joining an airline operators' conversion or refresher training.

- the initial trained Cabin Crew Member will have the basic knowledge and practical skills necessary for performing operational duties as a Cabin Crew Member in normal and emergency situations, and to form a pre requisite for conversion or refresher training, when having successfully completed and passed the initial training course.

The main subjects are:

- fire and smoke training
- water survival training
- survival training
- medical aspects and first aid
- passenger handling
- communication
- discipline and responsibilities

- crew resource management.

Modes of study

Duration of the day course is 11 days and the evening course is

16 days. The duration in hours is approximately 60, breaks not included.

The theoretical training is conducted in a classroom. To the methods include classroom instruction, computer based training (CBT) and practical training.

The Cabin Crew Member candidates shall be able to pass tests with at least 90% correct answers with regard to practical requirements.

English is commonly used as documentation language, as it is the language used within aviation. All elements of training and checking are conducted by suitably qualified instructors accepted by the Finnish Civil

Aviation Authority.

CONSULTANCY

Proffsaviation provides qualitative Cabin Operations Consultancy and auditing for airline operators.
